

# SHAMROCK

The Global Leader in PTFE Micropowders

## SHAMROCK SPECIALTY WAX POWDERS AND DISPERSIONS FOR AQUEOUS INKS & COATINGS

Engineered to overcome the inherent incompatibilities between wax and water, these specialized powders and dispersions are formulated for ease-of-incorporation and stability in most water based systems. They will provide optimum rub, mar, and scuff resistance, along with controlled range of slip and non-skid properties.

### PRODUCT / COMPONENT / KEY FEATURES

- **AquaFLON® 797** / Wax-PTFE Dispersions / Scratch and Abrasion Resistance
- **Hydrocer 145** / Natural Based Wax Dispersion / Slip and Anti-Blocking
- **Hydrocer D-336** / Modified Wax - Emulsion / Excellent Slip and Water Repellency
- **Hydrocer ER-77** / Modified PP-Emulsion / Clarity and NonSkid
- **Taber Plus 75** / Natural Based Wax Powder / High Abrasion Resistance
- **SPP-10** / PP Wax Powder / NonSkid and Matting

**- NEW -**

- Easy-to-Add FDA Grade **Oxidized PE Wax Powder**
- Modified **Natural Wax-PTFE Dispersions**
- Functional **Texturing Powders**
