

BioSLIP® 678

Soft natural wax alloy

Product Description:

BioSLIP® 678 is a sustainable bio-based wax alloy incorporating natural sourced materials which has been micronized to an average particle size of 8 micron.

Application:

BioSLIP® 678 is recommended for use in water and solvent based packaging inks and coatings. BioSLIP 678 may also be used as a bio based release agent in toners, TTR and polyurethanes.

Features and Benefits:

-  Slip
-  Rub/abrasion/scratch/mar resistance

Typical Properties:

 Appearance:	Off-white Micropowder
 Melting Point	83-85°C
 Particle Size Mean Value:	8 µm
 NPIRI Grind:	2.5 max

Regulatory Status:

The components of this product are listed on multiple chemical inventories. For specific information on the applicable chemical inventories, please refer to the product SDS.

Safety, Shipping and Handling:
